

FDJ UNITED included in the S&P Global Sustainability Yearbook, highlighting the world's leading companies in corporate sustainability

Boulogne-Billancourt (France), 24 June 2026 – FDJ UNITED has been included for the first time in the Sustainability Yearbook issued by S&P Global, joining a highly select group of the world's leading companies in corporate sustainability performance and engagement.

The Sustainability Yearbook recognises the companies in each industry that show outstanding performance in this area. The selection process is based on the in-depth Corporate Sustainability Assessment (CSA) carried out by S&P Global, which analyses the ESG data of thousands of companies across all eligible industries worldwide. Of the over 9,200 companies assessed in 2025 and considered for inclusion in the Sustainability Yearbook 2026 (#SustainableYearbook2026), only 848 were selected.

To be included in the Sustainability Yearbook, companies must meet the following three requirements: earn a CSA score of at least 30 (FDJ UNITED: 55), rank within 15% of the industry's top-performing companies by number and score within 30% of the industry's top-performing company.

In the Casinos & Gaming industry, among the 64 companies that applied, only 8 made it into the Yearbook. FDJ UNITED is the only newly included company in this industry for 2026, reaffirming the Group's position as a leader in corporate social and environmental responsibility.
